

Connecting and engaging members with the lodge via the My Elks mobile app

How the My Elks Mobile App can help engage members and build relationships with your lodge

Download the My Elks App today in your App Store

Through the Elks, we are all connected to our fellow members through a fraternal bond. The My Elks Mobile App helps further strengthen those fraternal bonds by keeping members connected with the lodge in new ways—from reminding incoming members of their orientation and initiation, to allowing existing members to submit reports of sickness and distress or visitation requests. The possibilities are endless with the My Elks Mobile app. Some of the features of the app include

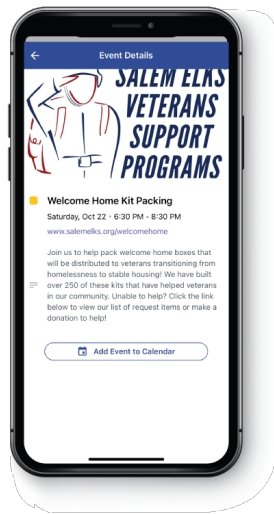

- **Push notifications** that allow the lodge to deliver information right into a member's hand via their mobile device.
- **Dynamic event calendars** that allow for RSVP links, ticketing links, or volunteer sign-up forms. In addition, members can add events to their device calendars for additional reminders.
- **Access to content** from your lodge, your state association, and Grand Lodge.
- **The ability to post forms** to submit sickness and distress reports to the lodge.

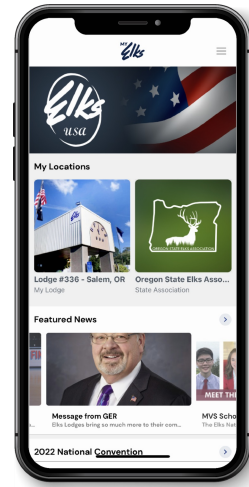

The My Elks Mobile App helps connect members with the lodge, increasing the fraternal bond and member engagement. Ultimately, engaged members are retained members! The My Elks Mobile App is available **free to members** in the Apple App Store and Google Play Store today! In order to take advantage of these features for your committee, your lodge will need to sign up for this new resource by contacting: <https://giantkiller.com/checkout/my-elks>.
